SLAA - SECOND LANGUAGE ACQUISITION AND APPLICATION

SLAA410 Second Language Acquisition: Theory, Research, and Practice
(3 Credits)
Introduces vibrant and expanding branch of language science and
cognitive science: theory, research and practice in SLA. Students apply
what they learn to practical issues ranging from learning languages as an
adult to societal problems involving second languages and dialects.
Prerequisite: LING200, LING240, PSYC200, PSYC221, or PSYC354.

SLAA498 Second Language Research and Practicum (1-3 Credits)
Individualized research and practicum for undergraduate students to
work as Undergraduate Research Assistants (UGRA) on existing projects
under the supervision of a PhD Graduate Supervisor (GS) in the area of
second language acquisition to learn/experience how second language
as well as psycholinguistic research is conducted.
Restriction: Permission of ARHU-School of Languages, Literatures, and
Cultures department.
Repeatable to: 9 credits if content differs.
Additional Information: UGRAs register for 1-3 credits. A specific weekly
schedule will be determined at the beginning of the semester. Throughout
the semester, students will meet with the Graduate Supervisor (GS) once
per week to discuss the theoretical and methodological background of
the project as well as the broader area behind the research. In addition
to the training in theoretical background, the first several weeks of the
semester will be devoted to hands-on details of running subjects using
a particular method and analyzing data. When this training is complete,
UGRAs will work more independently to schedule and run research
projects and process the data.
