COMMUNITY PLANNING AND HEALTH POLICY ANALYSIS AND EVALUATION (CPAE)

Graduate Degree Program
College: Architecture/Public Health

ABSTRACT
A core element central to both community planning and public health is the built environment, which includes human-designed and built surroundings that provide the settings for all aspects of human life, ranging from buildings and homes to parks and recreation facilities. A well planned community includes aspects of public health, while the public's health requires healthy facilities and a built environment that supports and promotes healthy living.

FINANCIAL ASSISTANCE
Aside from student loans through the university, MCP students are eligible to apply for graduate assistantships with URSP and the National Center for Smart Growth Research and Education. MCP applicants who are also Peace Corps veterans are eligible to apply for the Shriver Peaceworker fellowship program that is administered by the University of Maryland Baltimore County. Please note that competition is high for these financial awards. The program also maintains a list of internships, and many of our students work in part- or full-time jobs while completing the program. Program classes are scheduled to begin at 4:00 p.m. and 7:00 p.m. to accommodate our working students.
