COMMUNITY PLANNING AND HISTORIC PRESERVATION (CPHP)

Graduate Degree Program
School of Architecture, Planning and Preservation

Abstract
The dual degree combines course work from the Historic Preservation and Urban Studies and Planning programs to enable a student to complete both the Master of Historic Preservation and Master of Community Planning degrees with fewer credits than it would take to complete the two separately.

Students of the dual-degree program are ideally prepared to practice at the intersection of planning and preservation, disciplines that have long had close ties. For example, the Maryland Historical Trust, Maryland's State Historic Preservation Office is housed with the state's planning department. Similarly, preservation is imbedded in the planning offices in Baltimore City, and county's such as Prince Georges and Montgomery. Graduates of this program are prepared to practice in either discipline (a strength in times of economic recession) and, more importantly, are able to bring their special knowledge and understanding to preservation planning issues in communities across the state and nation.

Financial Assistance
The School of Architecture, Planning, and Preservation offers a limited and varying number of teaching and research assistantships, scholarships, fellowships, and internships. Applicants should apply for financial assistance when submitting the application for admission.

Scholarship determinations are made at the time of application and admission. Scholarships are generally awarded on a per course basis and commitments are made at the time of admission and apply to the entire program, subject to academic performance. Periodically there are named scholarships provided by various organizations or companies.

In addition, there are work opportunities both on, and off campus, and they are relatively plentiful. However, students in the dual degree program may find it difficult to complete their degree requirements timely if they are working off campus, or more than 10 hours per week.

Applicants should inquire as to the availability of funding for the term they are starting.

Contact
Find additional information on program offerings, degree requirements, admissions, and financial aid on the School's Web site (www.arch.umd.edu (http://www.arch.umd.edu)). Requirements
- Community Planning and Historic Preservation, Master of Community Planning and Master of Historic Preservation (dual degree) (M.C.P. and M.H.P.) (https://academiccatalog.umd.edu/graduate/programs/community-planning-historic-preservation-cphp/community-planning-historic-preservation-dual-degree-mcp-mhp/)

Facilities and Special Resources
The School of Architecture, Planning and Preservation is ideally located between Washington, DC, and Baltimore and surrounded by a number of historic communities and a varied physical environment. The resulting opportunity for community planning and historic preservation is unsurpassed.

The School's library contains some 57,000 monographs and 6,000 current periodicals, making it one of the major architectural libraries in the nation. The National Trust Library for Historic Preservation, housed in McKeldin Library, contains 11,000 volumes and 450 periodical titles. The Colvin Institute holds the entire library offerings of the Urban Land Institute and access to all the case studies published by ULI. The interdisciplinary National Center for Smart Growth Education and Research is based in the School offering perspectives and opportunities to engage important issues facing urban and regional planning as well as historic preservation.
