GERONTOLOGY (MASTER'S LEVEL) (Z100)

Graduate Certificate Program
College: Public Health

abstract
Students gain the knowledge and skills needed to effectively promote the health and well-being of the growing population of baby boomers and older persons. Designed for students pursuing a master's program in the University System of Maryland or those who have previously earned a graduate degree from an accredited institution, the Graduate Certificate in Gerontology can be a valuable complement to many degree programs. The GGCP offers students an individually tailored curriculum of course work, supervised internships and research.
