

HEALTH ADMINISTRATION (HLSA)

Graduate Degree Program
College: Public Health

Abstract

We are excited to inform you that we have changed the name of the on-campus MHA to the MPH in Healthcare Management. The new name better reflects the content of the degree that is designed to give students a strong knowledge base in health care management and health service delivery systems and an understanding of the basic and core principles of public health. If you have any questions about the change, please contact Melvin Seale at mseale@umd.edu.

Please see the Master of Public Health in Health Care Management (<https://academiccatalog.umd.edu/graduate/programs/health-care-management-hlcm/>) program page for more information.

ADMISSIONS

Please see the Master of Public Health in Health Care Management (<https://academiccatalog.umd.edu/graduate/programs/health-care-management-hlcm/>) program page.
