HEALTH EQUITY (HLEQ)

Graduate Degree Program
College: Public Health

Abstract
The Master of Public Health (MPH) degree with a concentration in Health Equity is a 45-credit interdisciplinary professional degree. It is a school wide program, currently administered by the Department of Health Services Administration.

The MPH program in Health Equity is designed to train students as public health scientists and practitioners that focus practice and/or research activities on the recognition, description and elimination of health disparities. Health disparities exist across several groups such as race/ethnic groups, geographic residence, gender, sexual orientation, age, and disability status. Public health and health care practitioners and researchers play a critical role in the identification and amelioration of health disparities and in working towards achieving health equity.

The MPH program in Health Equity is a unique and interdisciplinary program with students taking courses across all departments at UMD-SPH and across the UMD campus. The expertise gained through the MPH in Health Equity prepares students for careers that involve integrating health equity into public health practice at various levels. Various agencies in the state (e.g., county and state health departments) and across the nation (e.g., NIH and CDC), including colleges/universities, health-related agencies, community groups, and even large corporations (hospitals and insurance plans), employ public health professionals with a deep understanding of health disparities in order to design, implement, evaluate, and monitor interventions and policies to improve the health of their constituents by working towards health equity.

To accommodate a variety of career pursuits, students have flexibility in designing their course structure. Once a foundational knowledge is acquired through the MPH program’s core requirements, students are encouraged to take electives across a range of disciplines. A large number of elective courses are available within the existing graduate curriculum across all departments in the School of Public Health as well as across other UMD colleges and DC area institutions. Students will be advised to work with SPH faculty for recommendations about how certain elective courses will best support particular career aspirations.

The curriculum is adaptable to both a full and part-time student status.

Admissions
The MPH in Health Equity program has a two-step application process. Applicants first submit the SOPHAS application (www.sophas.org (https://sophas.org/)), the centralized application service for schools and programs of public health (Step 1). Once the SOPHAS application has been verified applicants will submit their UMD Supplemental application (Step 2). Applicants will receive an email from the SPH Admissions team with instructions for how to complete the UMD Supplemental Application. Applications will not be reviewed until both the SOPHAS and UMD Supplemental applications are completed.

GENERAL ADMISSION REQUIREMENTS
• A Bachelor’s degree
• Minimum 3.0 undergraduate GPA
• At least one undergraduate math course
• Transcripts from all previous coursework
• English proficiency test score (TOEFL, IELTS or PTE) (international applicants (https://gradschool.umd.edu/admissions/english-language-proficiency-requirements/))
• Statement of purpose and objectives including career and educational goals, professional experience, and areas of interest, and faculty you are interested in working with

PROGRAM SPECIFIC REQUIREMENTS
• SOPHAS application (Step 1) & UMD Supplemental application (Step 2)
• Three letters of recommendation
• Resume or curriculum vitae
• Fit between applicant’s goals and expectations and program degree competencies
• Official GRE Test Score submission is waived for Fall 2022 admissions. GRE scores won’t be reviewed.
• A writing sample is optional

For detailed instructions on how to submit your application, please visit the School of Public Health Website: https://sph.umd.edu/admissions/graduate-admissions/graduate-application-process (https://sph.umd.edu/admissions/graduate-admissions/graduate-application-process/).
