INFORMATION RISK, PRIVACY, AND SECURITY (Z139)

Graduate Certificate Program
College: Information Studies

ABSTRACT
There is a growing recognition of risks associated with protecting and managing information. The four-course, online Graduate Certificate in Professional Studies in Information Risk, Privacy, and Security is designed to prepare students to review data protection legislation, translate the legal requirements into information policy specifications, identify key information management dependencies, assess information processes to isolate where information policies need to be implemented and enforced, integrate methods for data validation and business rule compliance, as well as help architect, socialize, and deploy corporate information governance programs.
