REMOTE SENSING (Z151)

Graduate Certificate Program
College of Behavioral & Social Sciences

ABSTRACT
The Graduate Certificate in Remote Sensing program will concentrate on teaching science and technology for collecting, processing, analyzing, and visualizing geospatial data through remote sensing platforms such as satellite images, aerial photos, and drone images. The students in this certificate program will learn both the concepts and technical skills to be able to work as a Remote Sensing specialist. A total of four courses (12 credits) related to topics of Remote Sensing are required to complete this graduate certificate.
