TECHNOLOGY ENTREPRENEURSHIP (Z103)

Graduate Certificate Program
College: Engineering

Abstract
The Graduate Certificate in Professional Studies (GCPS) in Technology Entrepreneurship pairs an enriching academic experience with the skills and relationships of the University’s world-class startup incubators. The 100% online programs are designed to equip students with a practical understanding of the principles and techniques for effective new venture creation and launch.

The GCPS in Technology Entrepreneurship will prepare students to apply newly gained insights and acquired competencies to real-world innovation management challenges across the initial stages of the innovation value chain from idea generation to business modelling and market validation.

The GCPS in Technology Entrepreneurship unites academic insights with startup incubator skills and resources to empower students to launch and grow technology ventures. This 12-credit, 4-course graduate program may be completed in as little as 6 months. Offered through the convenience and flexibility of an online learning environment, students enroll in two 3-credit courses per 12-week term.

Offered through the convenience and flexibility of the online learning environment, the program enables student to:

• Think beyond current paradigms in order to discover innovation needs and to envision impact through strategic idea and concept development (Term 1).
• Leverage ideas to create sustainable business models aligned with customer needs and wants in competitive marketplaces (Term 2).
