Program Manager: Leslie Krafft, Ed.D.

TerrapinSTRONG is a shared vision and values for the entire campus community and one of 12 initiatives identified by President Pines on his first day in office as president. All new faculty, staff and students participate in the TerrapinSTRONG onboarding course, as well as TerrapinSTRONG onboarding initiatives within their division/college/school. These onboarding experiences are just the first step to creating an inclusive campus. Each participant creates their own action plan following the training, and the TerrapinSTRONG vision is the shared understanding from which we work to improve the sense of community, connection and inclusion on our campus.
