Agricultural Science and Technology is an interdisciplinary major focusing on sustainable production of food, feed, fiber, fuel, and animal, food & plant sciences; biotechnology; environmental & natural resources; leadership, youth & career development; power, structural & animal, food & plant sciences; and foundational pedagogical education courses. Students will take courses in animal science, crop science, soil science, agricultural economics and plant protection. This specialization has electives that allows students to design their curriculum and develop knowledge in areas that meet their future goals. Graduates will be prepared to work in the agricultural industry in agricultural extension, management, marketing, regulatory, support services, as well as other opportunities.

Environmental Horticulture
The Environmental Horticulture specialization focuses on the science, technology and management of sustainable fruit, vegetable, flower and woody ornamental plant production as well as controlled environment agriculture and hydroponic crop production. Applied aspects of the curriculum include training in plant propagation, plant identification, field production of fruits, vegetables and ornamental crops, greenhouse crop production, containerized nursery production, and food production in controlled environment and hydroponic systems. Courses are taken in plant science, soil science, plant pathology and entomology, plant protection and food safety. Graduates of this program pursue careers in production horticulture, urban agriculture, food safety and public education programs. Some own their own businesses. Students can prepare for plant science graduate programs by taking additional courses.

Agricultural and Extension Education
The Agricultural and Extension Education specialization provides students with varying coursework in agribusiness & communications; animal, food & plant sciences; biotechnology; environmental & natural resources; leadership, youth & career development; power, structural & technical systems; and foundational pedagogical education courses. Students practice agricultural literacy techniques throughout their individualized learning experiences to develop mastery in educating using agricultural concepts with diverse audiences. Inclusion within the Terrapin Teachers program provides cross-disciplinary and interdisciplinary opportunities for learning with peers.

Graduates focused on formal education may become certified secondary high school agricultural teachers in public or private schools or specialize in an area for career technical education. Those focused as agricultural advocates may seek non-formal education jobs in non-profit agricultural literacy based foundations, become Extension youth educators, Extension agricultural specialists, or work within agricultural industry public relations areas. Proximity to federal agencies provides students with an opportunity to expand their international and regulation agency networking skills.

Undergraduates have two options.

1. The first option is to complete a double major in 4 years*: (1) Agricultural Science and Technology, Agricultural and Extension Education specialization and (2) Secondary Sciences Education. Graduates of this option are eligible to obtain teacher certification.

*With Junior status, students could opt to enroll in the Integrated Master Certificate Program (IMCP) and complete a Curriculum and Instruction, Master of Education (M.Ed.) with Certification in the 5th year. These students are able to complete additional agricultural content courses due to the majority of their educational courses being completed in the 30 credit master’s program.

2. The second option is to major in Agricultural Science and Technology, Agricultural and Extension Education specialization with no teacher certification and focus on Extension/Industry internships. Students graduating from this option could apply at a later date to complete a master's degree through the Curriculum and Instruction, Master of Education (M.Ed.) with the teacher certification (MCERT) program.

Program Learning Outcomes
1. Students will develop technical and knowledge-based skills in the required areas of study.
2. Students will use technical and basic learned knowledge to collaborate, solve problems, and then articulate conclusions.
3. Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
4. Students will connect and build relationships with external groups in the appropriate fields of study.

Requirements
Grading Policy: Students in the Agricultural Science & Technology program are required to earn grades of “C-” or higher in all required courses including courses used to satisfy elective requirements.

Foundational Science Courses

Select one of the following:

Foundational Agricultural Courses
PLSC201  Plant Structure and Function 3
PLSC206  Plant Structure and Function Laboratory 1
ENST200  Fundamentals of Soil Science 4

**Plant Protection Courses**

BSCI337  Biology of Insects 4
or BSCI487  IPM: Science-Based Decision Making for Sustainable Pest Management
or BSCI497  Insect Pests of Ornamentals and Turf

PLSC206  Plant Structure and Function Laboratory 1

**Specialization Requirements** 54-75

Select one of the following specializations:
- Agronomy
- Environmental Horticulture
- Agricultural and Extension Education

**Total Credits** 80-102

### Environmental Horticulture

Select one of the following:

**Mathematics Course**

- AREC250  Elements of Agricultural and Resource Economics 3
- ECON200  Principles of Microeconomics 3

**Economics Course**

Select one of the following:

- ANSC101 & ANSC103  Principles of Animal Science and Principles of Animal Science Laboratory 4
- BMGT110  Introduction to the Business Value Chain 4
- BMGT160  The Intentional Self 4
- BSCI126  Pollinators in Crisis 4
- GEOG110  The World Today: Global Perspectives or GEOG330  As the World Turns: Society and Sustainability in a Time of Great Change 4
- GEOL120  Environmental Geology 4
- INAG250  Elements of Agricultural and Resource Economics 4
- LARC151  Urban Agriculture: Designing and Assessing Edible Landscapes 4
- LARC160  Introduction to Landscape Architecture and Environmental Design 4
- LARC162  Environmental Justice: Same World, Different Built Environment 4
- SPAN103  Intensive Elementary Spanish 4

**Biological Sciences**

Select one of the following courses:

- BSCI170 & BSCI171  Principles of Molecular & Cellular Biology Laboratory 7

**Foundational Horticulture Courses**

Complete all listed courses
Agricultural Science and Technology Major

PLSC110 & PLSC111 Introduction to Horticulture and Introduction to Horticulture Laboratory
PLSC271 Plant Propagation

Lower level (greater or equal to 100) restricted electives 6-8

Select two of the following courses:
AGST130 Did Yeast Create Civilization?
PLSC125 Feeding Ten Billion by 2050: Food Security and Crop Protection
PLSC203 Plants, Genes and Biotechnology
PLSC205 Introduction to Turf Science and Management
PLSC226 Plant Diversity
PLSC253 Woody Plants for Mid-Atlantic Landscapes I
PLSC254 Woody Plants for Mid-Atlantic Landscape II
AOSC200 Weather and Climate & AOSC201 and Weather and Climate Laboratory

Agriculture Business, Economics, Management or Marketing Course 3

Select one of the following:
AREC306 Farm Management and Sustainable Food Production
AREC345 Global Poverty and Economic Development
AREC365 World Hunger, Population, and Food Supplies
BMGT Restricted Elective
PLSC251 Financial Applications for the Green Industry

Advanced Horticulture Courses

Complete all listed courses:
PLSC432 Greenhouse Crop Production 3
PLSC433 Technology of Fruit and Vegetable Production 4

Upper level (greater or equal to 300) restricted electives 6-8

Select two of the following:
AGST333 Crafty Beverage Crops
AGST401 Tractor and Equipment Operation, Safety and Maintenance
ENST411 Principles of Soil Fertility
LARC461 People and the Environment
PLSC303 Global Food Systems
PLSC400 Plant Physiology
PLSC425 Green Roofs and Urban Sustainability
PLSC452 Environmental Horticulture
PLSC461 Cultural Management of Nursery and Greenhouse Systems: Substrates
PLSC462 Cultural Management of Nursery and Greenhouse Systems: Irrigation
PLSC464 Cultural Management of Nursery and Greenhouse Systems: Nutrients
PLSC471 Forest Ecology
AGST or PLSC Approved Elective

Career Preparation Courses 6

PLSC389 Internship 4
or PLSC399 Special Problems in Plant Science
PLSC460 Application of Knowledge in Plant Sciences

General Electives 6

Total Credits 54-59

1 This course will be chosen in consultation with the academic advisor.
2 This course is restricted to the 200-level or above.
3 This course is restricted to 300-level or above courses within the Agricultural Science and Technology program or the Plant Sciences program.
4 Requires approval from advisor.

Agricultural and Extension Education: Teaching Certificate

Course Title Credits
Agriculture-Related Courses
Animal Science
ANSC101 Principles of Animal Science 4
& ANSC103 and Principles of Animal Science Laboratory
One of the following animal management courses: 3
ANSC220 Livestock Management
ANSC232 Horse Management
ANSC242 Dairy Cattle Management
ANSC245 Sheep Management
ANSC255 Introduction to Aquaculture
ANSC262 Commercial Poultry Management
ANSC282 Grazing Animal Management

Agribusiness
MATH113 College Algebra and Trigonometry 3
AREC250 Elements of Agricultural and Resource Economics 3

Biology
BSCI160 Principles of Ecology and Evolution & BSCI161 and Principles of Ecology and Evolution Lab 4

Power, Structural & Technical
INAG250 Fundamentals of Agricultural Mechanics 3
PLSC235 Irrigation and Drainage 3
or INAG235 Irrigation and Drainage

Environmental Sciences and Natural Resources
PLSC471 Forest Ecology (or elective focused on Renewable Energy) 3

Plant Sciences
PLSC110 Introduction to Horticulture 4
& PLSC111 and Introduction to Horticulture Laboratory
or PLSC112 Introductory Crop Science & PLSC113 and Introductory Crop Science Laboratory

Food Science
NFSC112 Food: Science and Technology 3
or PLSC115 How Safe is Your Salad? The Microbiological Safety of Fresh produce

Leadership & Career Development
AGST440 (Exploring Maryland Agriculture, Agricultural Industries & Agricultural Literacy) 3
AGST442 (Developing Leadership in Youth and Volunteers) 3
EDHD426 Cognitive and Motivational Literacy Content 3

Education Pre-Professional
TLPL101 Inquiry Approach to Teaching STEM (Step 1) 1
TLPL102 Inquiry Teaching of STEM in Middle School 2

**TLPL401**  Student-Centered Curriculum and Instruction

**TLPL414**  Knowing and Learning in Mathematics and Science  3

**Industry/Extension**

**Agricultural Expanded**

**ANSC255**  Introduction to Aquaculture  3

**BSCI121**  Beekeeping  2

**INAG252**  Agricultural Public Relations  3

**AREC/PLSC/LARC Restricted Elective**  6

**AREC/PLSC/LARC: Restricted Elective**

**AGST Internship or Elective**  3

**AGST Internship or Elective**  3

**AGST Internship or Elective Course**  3

**Total Credits**  74

1 Internship requirement: Students will either do two internships for a total of 6 credits or one internship for 3 credits and take a different elective course for 3 credits.

**FOUR-YEAR PLAN**

Click here (https://agnr.umd.edu/academics/advising/four-year-plans/) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- http://4yearplans.umd.edu
- the Student Academic Success-Degree Completion Policy (https://academiccatalog.umd.edu/undergraduate/registration-academic-requirements-regulations/academic-advising/#success) section of this catalog

**ADVISING**

The department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year.

For additional information please see:
Agricultural Science and Technology Major

**OPPORTUNITIES**

**Undergraduate Research Experiences**

Students are encouraged to take part in faculty mentored research. Please contact an advisor for more information.

**Internships**

Internships are a part of the required curriculum and can be in private or government sector employment. Formal (K-12 schools) and non-formal (non-profits, industry & Extension) education settings are available for students in the Agricultural & Extension Education specialization.

**Student Clubs and Professional Organizations**

Faculty in the department advise student clubs. The department also sponsors student teams that participate in regional and national contests. These teams participate in competitions in the following areas: turf and crop science.

**Scholarships and Financial Assistance**

Several scholarships and awards are available to AGST students. Contact the Associate Dean's office at 301-405-2078 for additional information. The Department also maintains a listing of scholarships. For more information regarding these scholarships contact the Chair's office in 2104A Plant Sciences, 301-405-4356.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: http://financialaid.umd.edu.
