AGRICULTURAL SCIENCE AND TECHNOLOGY MAJOR

College of Agriculture and Natural Resources
2139 Plant Sciences Building
Phone: 301-405-4359
dcortez@umd.edu
http://psla.umd.edu

Program Director: Melissa Leiden Welsh, Ph.D. (https://agnr.umd.edu/about/directory/melissa-welsh/)

Agricultural Science and Technology is an interdisciplinary major focusing on sustainable production of food, feed, fiber, fuel, and ornamentals as well as developing skills to provide agricultural education for all. This major is a science-based curriculum that allows students to obtain technological skills while developing critical thinking in a broad area of agricultural studies. There are three specializations to choose from in this major: Agronomy, Environmental Horticulture (fruit, vegetable and ornamental production outdoors and in controlled environment and hydroponic systems), and Agricultural and Extension Education.

Agronomy

Agronomy students will focus on a broad range of agricultural disciplines providing them with a comprehensive education in crop, soil and animal sciences. Students will take courses in animal science, crop science, soil science, agricultural economics and plant protection. This specialization has electives that allows students to design their curriculum and develop knowledge in areas that meet their future goals. Graduates will be prepared to work in the agricultural industry in agricultural extension, management, marketing, regulatory, support services, as well as other opportunities.

Environmental Horticulture

The Environmental Horticulture specialization focuses on the science, technology and management of sustainable fruit, vegetable, flower and woody ornamental plant production as well as controlled environment agriculture and hydroponic crop production. Applied aspects of the curriculum include training in plant propagation, plant identification, field production of fruits, vegetables and ornamental crops, greenhouse crop production, containerized nursery production, and food production in controlled environment and hydroponic systems. Courses are taken in plant science, soil science, plant pathology and entomology, plant protection and food safety. Graduates of this program pursue careers in production horticulture, urban agriculture, food safety and public education programs. Some own their own businesses. Students can prepare for plant science graduate programs by taking additional courses.

Agricultural and Extension Education

The Agricultural and Extension Education specialization provides students with varying coursework in agribusiness & communications; animal, food & plant sciences; biotechnology; environmental & natural resources; leadership, youth & career development; power, structural & technical systems; and foundational pedagogical education courses. Students practice agricultural literacy techniques throughout their individualized learning experiences to develop mastery in educating using agricultural concepts with diverse audiences. Inclusion within the Terrapin Teachers program provides cross-disciplinary and interdisciplinary opportunities for learning with peers.

Graduates focused on formal education may become certified secondary high school agricultural teachers in public or private schools or specialize in an area for career technical education. Those focused as agricultural advocates may seek non-formal education jobs in non-profit agricultural literacy based foundations, become Extension youth educators, Extension agricultural specialists, or work within agricultural industry public relations areas. Proximity to federal agencies provides students with an opportunity to expand their international and regulation agency networking skills.

Undergraduates have two options.

1. The first option is to complete a double major in 4 years*: (1) Agricultural Science and Technology, Agricultural and Extension Education specialization and (2) Secondary Sciences Education. Graduates of this option are eligible to obtain teacher certification.

   *With Junior status, students could opt to enroll in the Integrated Master Certificate Program (IMCP) and complete a Curriculum and Instruction, Master of Education (M.Ed.) with Certification in the 5th year. These students are able to complete additional agricultural content courses due to the majority of their educational courses being completed in the 30 credit master’s program.

2. The second option is to major in Agricultural Science and Technology, Agricultural and Extension Education specialization with no teacher certification and focus on Extension/Industry internships. Students graduating from this option could apply at a later date to complete a master’s degree through the Curriculum and Instruction, Master of Education (M.Ed.) with the teacher certification (MCERT) program.

Program Learning Outcomes

1. Students will develop technical and knowledge-based skills in the required areas of study.
2. Students will use technical and basic learned knowledge to collaborate, solve problems, and then articulate conclusions.
3. Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
4. Students will connect and build relationships with external groups in the appropriate fields of study.

REQUIREMENTS

Grading Policy: Students in the Agricultural Science & Technology program are required to earn grades of “C-” or higher in all required courses including courses used to satisfy elective requirements.

Agricultural Science and Technology Major

PLSC206  Plant Structure and Function Laboratory  1
ENST200  Fundamentals of Soil Science  4

Plant Protection Courses
BSCI337  Biology of Insects  4
or BSCI487  IPM: Science-Based Decision Making for Sustainable Pest Management
or BSCI497  Insect Pests of Ornamentals and Turf
PLSC420  Principles of Plant Pathology  4
PLSC453  Weed Science  3

Specialization Requirements  54-75
Select one of the following specializations:
- Agronomy
- Environmental Horticulture
- Agricultural and Extension Education

Total Credits  80-102

Environmental Horticulture

Course  Title  Credits
Mathematics Course
MATH115  Precalculus  3
Economics Course
- Select one of the following:
  - AREC250  Elements of Agricultural and Resource Economics
  - ECON200  Principles of Microeconomics
Introductory Course  3-4
- Select one of the following:
  - ANSC101  Principles of Animal Science
  & ANSC103  and Principles of Animal Science Laboratory
  - BMGT110  Introduction to the Business Value Chain
  - BMGT160  The Intentional Self
  - BSCI126  Pollinators in Crisis
  - GEOG110  The World Today: Global Perspectives
  or GEOG330  As the World Turns: Society and Sustainability in a Time of Great Change
  - GEOL120  Environmental Geology
  - INAG250  Fundamentals of Agricultural Mechanics
  - LARC151  Urban Agriculture: Designing and Assessing Edible Landscapes
  - LARC152  Greening Cities: Who Wins, Who Loses, and Who Cares?
  - LARC160  Introduction to Landscape Architecture and Environmental Design
  - LARC162  Environmental Justice: Same World, Different Built Environment
  - SPAN103  Intensive Elementary Spanish

Biological Sciences  4
- Complete the following courses:
  - BSCI170  Principles of Molecular & Cellular Biology
  & BSCI171  and Principles of Molecular & Cellular Biology Laboratory

Foundational Horticulture Courses  7
- Complete all listed courses

1 This course will be chosen in consultation with the academic advisor.
2 This course is restricted to 300-level or above courses within the Department of Animal and Avian Sciences.
3 This course is restricted to 300-level or above courses with the Department of Agricultural and Resource Economics or the Robert H. Smith School of Business.
4 This course is restricted to 300-level or above courses within the Agricultural Science and Technology program or the Plant Science program.
5 This course is restricted to 300 level or above courses within the Department of Environmental Science and Technology.
6 This course is restricted to Education, Computer Science or Policy.
Agriculture and Extension Education: Teaching Certificate

Course | Title                                                                 | Credits |
-------|----------------------------------------------------------------------|---------|
**Agriculture-Related Courses** |                                                                      |         |
Animal Science | ANSC101 Principles of Animal Science | 4       |
& ANSC103 and Principles of Animal Science Laboratory |         |
**One of the following animal management courses:** | 3 |
ANSC220 | Livestock Management |         |
ANSC232 | Horse Management |         |
ANSC242 | Dairy Cattle Management |         |
ANSC245 | Sheep Management |         |
ANSC255 | Introduction to Aquaculture |         |
ANSC262 | Commercial Poultry Management |         |
ANSC282 | Grazing Animal Management |         |
**Agribusiness** |                                                                      |         |
MATH113 | College Algebra and Trigonometry | 3       |
AREC250 | Elements of Agricultural and Resource Economics | 3       |
**Biology** |                                                                      |         |

INAG250 | Fundamentals of Agricultural Mechanics | 3       |
PLSC235 | 3 |
or INAG235 | Irrigation and Drainage |         |
**Environmental Sciences and Natural Resources** |                                                                      |         |
PLSC471 | Forest Ecology (or elective focused on Renewable Energy) | 3       |
**Plant Sciences** |                                                                      |         |
PLSC110 | Introduction to Horticulture | 4       |
& PLSC111 | and Introduction to Horticulture Laboratory |         |
or PLSC112 | Introductory Crop Science |         |
& PLSC113 | and Introductory Crop Science Laboratory |         |
**Food Science** |                                                                      |         |
NFSC112 | Food: Science and Technology | 3       |
or PLSC115 | How Safe is Your Salad? The Microbiological Safety of Fresh produce |         |
**Leadership & Career Development** |                                                                      |         |
AGST440 | Exploring Maryland Agriculture, Agricultural Industry, and Agricultural Literacy (Exploring Maryland Agriculture, Agricultural Industries & Agricultural Literacy) | 3       |
AGST442 | (Developing Leadership in Youth and Volunteers) | 3       |
EDHD426 | Cognitive and Motivational Literacy Content | 3       |
**Education Pre-Professional** |                                                                      |         |
TLPL101 | Inquiry Approach to Teaching STEM (Step 1) | 1       |
TLPL102 | Inquiry Teaching of STEM in Middle School | 2       |

1 This course will be chosen in consultation with the academic advisor.
2 This course is restricted to the 200-level or above.
3 This course is restricted to 300-level or above courses within the Agricultural Science and Technology program or the Plant Sciences program.
4 Requires approval from advisor.
Agricultural Science and Technology Major

One of the following courses:

- TLPL401 Student-Centered Curriculum and Instruction 3
- TLPL488 Special Topics in Education (TLPL488P: Project Based Instruction)
- TLPL414 Knowing and Learning in Mathematics and Science 3

**Teacher Certification**

**Professional Courses**

- TLPL415 Perspectives in Science 3
- TLPL425 Learning and Teaching in Science 3
- or AGST425
- TLPL481 Embracing Diversity in the Classroom Community 3

**Student Teaching**

- TLPL478 Professional Seminar in Education (TLPL478F: Professional Seminar in Education: Agriculture) 2
- TLPL479 Field Experiences in Education (TLPL479F: Field Experience in Science Education) 1
- TLPL489 Internship in Education (TLPL489F) 12

Total Credits 75

### Agricultural and Extension education: Extension/Industry

**Course**

- **Agriculture-Related Courses**
  - **Animal Science**
    - ANSC101 Principles of Animal Science 2
    - ANSC103 Principles of Animal Science Laboratory 2
  - One of the following animal management courses: 3
    - ANSC220 Livestock Management
    - ANSC232 Horse Management
    - ANSC242 Dairy Cattle Management
    - ANSC245 Sheep Management
    - ANSC262 Commercial Poultry Management
    - ANSC282 Grazing Animal Management
  - **Agribusiness**
    - MATH113 College Algebra and Trigonometry 3
    - AREC250 Elements of Agricultural and Resource Economics 3
  - **Biology**
    - BSCI160 Principles of Ecology and Evolution 3
    - BSCI161 Principles of Ecology and Evolution Laboratory 3
  - **Power, Structural & Technical**
    - INAG250 Fundamentals of Agricultural Mechanics 3
    - PLSC235 Irrigation and Drainage 3
    - or INAG235
  - **Environmental Sciences and Natural Resources**
    - PLSC471 Forest Ecology (or elective focused on Renewable Energy) 3
  - **Plant Sciences**
    - PLSC110 Introduction to Horticulture and Introduction to Horticulture Laboratory 4
    - PLSC111 Introductory Crop Science and Introductory Crop Science Laboratory 4
  - **Food Science**
    - NFSC112 Food: Science and Technology 3
    - or PLSC115 How Safe is Your Salad? The Microbiological Safety of Fresh produce

**Leadership & Career Development**

- AGST442 (Developing Leadership in Youth and Volunteers) 3
- AGST440 Exploring Maryland Agriculture, Agricultural Industry, and Agricultural Literacy (Exploring Maryland Agriculture, Agricultural Industries & Agricultural Literacy)

**Education Pre-Professional**

- TLPL101 Inquiry Approach to Teaching STEM (Step 1) 1
- TLPL102 Inquiry Teaching of STEM in Middle School 2
  - One of the following courses: 3
    - TLPL488 Special Topics in Education (TLPL488P: Project Based Instruction)
    - TLPL401 Student-Centered Curriculum and Instruction
    - TLPL414 Knowing and Learning in Mathematics and Science 3

**Industry/Extension**

- **Agricultural Expanded**
  - ANSC255 Introduction to Aquaculture 3
  - BSCI121 Agricultural Public Relations 2
  - INAG252 Agricultural Public Relations 3
  - AREC/PLSC/LARC Restricted Elective 6
- **AREC/PLSC/LARC Restricted Elective** 6
- **AGST Internship or Elective** 1
  - AGST489 Special Topics in Agricultural Science and Technology (Internship) 3
- **AGST Internship or Elective Course** 3

Total Credits 74

1 Internship requirement: Students will either do two internships for a total of 6 credits or one internship for 3 credits and take a different elective course for 3 credits.

### GRADUATION PLANS

Click here (https://agnr.umd.edu/academics/advising/four-year-plans/) for roadmaps for graduation plans in the College of Agricultural and Natural Resources.

Additional information on developing a graduation plan can be found on the following pages:

- http://4yearplans.umd.edu
- the Student Academic Success-Degree Completion Policy (https://academiccatalog.umd.edu/undergraduate/registration-academic-requirements-regulations/academic-consulting/#success) section of this catalog

### ADVISING

The department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year.

For additional information please see:
**Concentration** | **Faculty Advisor**
---|---
Agricultural and Extension Education | Dr. Melissa Leiden Welsh, Director and Assistant Clinical Professor, Agricultural and Extension Education Advisor, drmwelsh@umd.edu
Agronomy | Dr. Bill Phillips, Assistant Clinical Professor, Agronomy Advisor, billii@umd.edu
Environmental Horticulture | Dr. Diana Cochran, Assistant Clinical Professor, Environmental Horticulture Advisor, cochrand@umd.edu
General Questions | Diana Cortez, Academic Advisor & Lecturer, dcorzet@umd.edu

**OPPORTUNITIES**

**Undergraduate Research Experiences**
Students are encouraged to take part in faculty mentored research. Please contact an advisor for more information.

**Internships**
Internships are a part of the required curriculum and can be in private or government sector employment. Formal (K-12 schools) and non-formal (non-profits, industry & Extension) education settings are available for students in the Agricultural & Extension Education specialization.

**Student Clubs and Professional Organizations**
Faculty in the department advise student clubs. The department also sponsors student teams that participate in regional and national contests. These teams participate in competitions in the following areas: turf and crop science.

**Scholarships and Financial Assistance**
Several scholarships and awards are available to AGST students. Contact the Associate Dean's office at 301-405-2078 for additional information. The Department also maintains a listing of scholarships. For more information regarding these scholarships contact the Chair's office in 2104A Plant Sciences, 301-405-4356.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: http://financialaid.umd.edu.
