PLANT SCIENCES MAJOR

http://psla.umd.edu/undergraduate/plant-sciences/

**Program Director:** Dr. Jianhua Zhu ([https://agnr.umd.edu/about/directory/jianhua-zhu/](https://agnr.umd.edu/about/directory/jianhua-zhu/)), jhzu@umd.edu

**PLSC:** Plant Biology Advisor: Dr. Gary Coleman ([https://agnr.umd.edu/about/directory/gary-coleman/](https://agnr.umd.edu/about/directory/gary-coleman/)), gcoleman@umd.edu

**PLSC:** Turf & Golf Course Management and Landscape Management Advisor: Dr. Mark Carroll ([https://agnr.umd.edu/about/directory/mark-carroll/](https://agnr.umd.edu/about/directory/mark-carroll/)), mcarroll@umd.edu

**PLSC:** Urban Forestry Advisor: Dr. Joseph Sullivan ([https://agnr.umd.edu/about/directory/joseph-h-sullivan/](https://agnr.umd.edu/about/directory/joseph-h-sullivan/)), jsull@umd.edu

For general questions, please email Diana Cortez, dcortez@umd.edu.

Plant Sciences combines basic science courses with applied technical classes to prepare students for research, public sector, and industry careers. Students seeking a Plant Sciences degree must complete requirements in one of the following Areas of Concentration: Plant Biology, Turf and Golf Course Management, or Urban Forestry.

- **Plant Biology** is designed to prepare students for graduate or professional schools and/or a career in research. This area provides a strong foundation for postgraduate education and research careers in biotechnology, plant physiology and development, cell biology, molecular biology, plant genetics/genomics, conservation biology, ecology, and plant pathology.

Management Programs:

- **Turf and Golf Course Management** prepares students to succeed as a turfgrass professional in the golf course or sports turf industry, stressing an interdisciplinary approach to this career.

- **Urban Forestry** prepares students to manage urban trees and forests and enhance their sustainability. This program stresses tree biology, forest ecology and forest assessment and management tools and prepares students for careers with municipalities or government agencies as well as private industry such as power companies and the tree-care industry.

**Program Learning Outcomes**

1. Students will develop technical and knowledge-based skills in the required areas of study.

2. Students will use technical and basic learned knowledge to collaborate, solve problems and then articulate conclusions.

3. Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.

4. Students will connect and build relationships with external groups in the appropriate fields of study.

**REQUIREMENTS**

### Advanced Science Electives

Select one of the following: 3-4

- `BCHM261` Principles of Soil Fertility
- `or BSCI461`
- `ENST411` Soil Hydrology and Physics
- `ENST417` Soil Chemistry
- `PHYS122` Fundamentals of Physics II

**Total Credits**: 49-53

### Turf and Golf Course Management
