Minor Advisor: Margaret J. Antonisse, Ph.D.

The minor in linguistics will introduce students to key concepts that form
the basis of modern generative linguistics. Students are introduced to the
different sub-areas of linguistics in two introductory courses. Two more
advanced courses in syntax and in phonology build on this foundation.
One 3xx-4xx level linguistics elective completes the minor. The minor
in linguistics will be of relevance to students majoring in Languages,
English, Psychology, Philosophy, Education and Computer Science.
