To lead the development of academic, educational, and research directions in human and natural systems, land cover/and land use change and geospatial information science, harnessing the integrative nature of geographic science to answer fundamental questions of global importance.

Programs

Major
• Geographical Sciences Major (https://academiccatalog.umd.edu/undergraduate/colleges-schools/behavioral-social-sciences/geographical-sciences/geographical-sciences-major/)

Minors
• Geographic Information Science Minor (https://academiccatalog.umd.edu/undergraduate/colleges-schools/behavioral-social-sciences/geographical-sciences/geographic-information-science-minor/)

Advising
Advising is mandatory for students each semester. The advising office is located at 2181M LeFrak Hall. If you can, please email before you visit us since the schedule can change day to day. We can always be reached via email at geog-advice@umd.edu or voice mail at 301-405-4073.

Opportunities

Fieldwork Opportunities
GEOG418 (Summer/Fall): Field and Laboratory Techniques in Environmental Science
Applied introduction to field methods. This class is built around a two week field trip (mid-August) with a base camp in the headwaters of the Potomac River in the mountains of West Virginia. During the camp the following topics are covers: GPS (global positions system), stream hydrology measurements, vegetation classification and ordination, micrometeorological measurements, soils, water quality, remote sensing and GIS, local environmental issues, geomorphology and paleohistory, and natural and cultural history.

GEOG330 Beijing, China (Summer): Society and Sustainability
Sustainability is a 21st century buzzword and its definition varies across sectors, scales, and regions. Though all countries share a role in ensuring a sustainable future, given their large populations, GDP and rates of resource consumption, the United States and China are the most critical actors in this narrative. Join this study abroad program in Beijing, China, to learn about the country’s sustainability initiatives through field visits, lectures, professional presentations, and group work with Beijing Normal University college students. You will examine why environmental change is spatially distributed, and how sustainability decisions are made within societies on multiple scales and by multiple cultures. Take this unique opportunity to learn and see the interactions of society and sustainability in China - the country that potentially holds the most peril and promise to a sustainable global future. http://www.geog.umd.edu/content/study-abroad (http://www.geog.umd.edu/content/study-abroad/)

Internships
The Department of Geographical Sciences offers a one-semester internship program for undergraduates. Students can earn a total of three credits. Students are responsible for finding their own internships and can pursue a wide variety of opportunities in the public private and non-profit sectors. Internships may be on-or off-campus, paid or unpaid. http://www.geog.umd.edu/content/internship-program (http://www.geog.umd.edu/content/internship-program/)

Internship Requirements
• Junior or senior with a minimum of 70 credits
• 2.5 GPA overall

Internship Partners
• NASA Develop
• USDA
• Campus GIS - Facilities Management
• NOAA
• ESRI
• START
• Urban Resources Initiative
• The Maryland National Capital Park and Planning Commission

Honors Program
Students admitted to the Honors program engage in independent research under the guidance of an individual faculty member. Students are eligible upon completion of 30 credits of geography courses including the required courses. Honors students will need to register for 12 credits of which they can substitute for formal coursework. Students must have a 3.2 overall GPA and a 3.5 GPA in Geographical Sciences. http://www.geog.umd.edu/content/honors-geography (http://www.geog.umd.edu/content/honors-geography/)

Student Societies and Professional Organizations

Geography Club
Geography Club is back and better than ever! Join undergrads and grad students for cultural potlucks, international movies, charity events and exploratory trips around the DC metropolitan area!
• Contact the Geography Club at geogclubumd@gmail.com for more information.
• https://geog.umd.edu/content/clubs-and-associations (https://geog.umd.edu/content/clubs-and-associations/)

Gamma Theta Upsilon: The Geography Honor Society
GTU is an international honor society in geography that aims to further professional interest in Geography, strengthen student and professional training and encourage student research. Membership is earned through
superior scholarship and therefore it is an honor and a professional
distinction.

Members must be in their 4th semester of study, working towards a
Geographical Sciences or related degree, have a minimum 3.3 GPA
cumulative and in all Geographical Sciences classes and attend meetings
and events.

https://geog.umd.edu/undergraduate/associations (https://
geog.umd.edu/undergraduate/associations/)

The Association of American Geographers
The Association of American Geographers (AAG) is a nonprofit scientific
and educational society founded in 1904. For 100 years the AAG has
contributed to the advancement of geography. Its members from
more than 60 countries share interests in the theory, methods, and
practice of geography, which they cultivate through the AAG's Annual
Meeting, two scholarly journals (Annals of the Association of American
Geographers and The Professional Geographer), and the monthly AAG

The Sustainability Club
The Department of Geographical Sciences' sustainability club, otherwise
known as the Geography Sustainability Task Force (GSTF), seeks
to improve the efficiency of our consumption and improve working
conditions while at the same time reducing our environmental footprint.
We have made small strides such as changing paper usage and
reducing power consumption in computer labs, but continue to
work on large issues of departmental and building-wide lighting,
water, and waste. Through increased education, awareness, and
involvement we look forward to big changes in 2012 and beyond. The
GSTF has, and continues to, consult and work with the University of
Maryland Office of Sustainability (www.sustainability.umd.edu (http://
www.sustainability.umd.edu)). Future meetings will be posted here and
announced through internal departmental emails.

• Additional information can be obtained from Evan Ellicott
  (ellicott@umd.edu).

  www.geog.umd.edu/content/clubs-and-associations/)

Scholarships and Financial Assistance
The Office of Student Financial Aid (OSFA) administers all types
of federal, state and institutional financial assistance programs
and, in cooperation with other university offices, participates in the
awarding of scholarships to deserving students. For information, visit:
www.financialaid.umd.edu (http://www.financialaid.umd.edu)

Awards and Recognition
• James R. Anderson Award For Undergraduate Excellence
• Robert A. Harper Award for Outstanding Undergraduate Research and
  Writing
• Undergraduate Research Symposium Award
• Outstanding Undergraduate Teaching Assistant Award

ACADEMIC PROGRAMS AND
DEPARTMENTAL FACILITIES
The Geographical Science Department has two 25-seat computer
teaching laboratories that are used in undergraduate coursework,
particularly in GIS/Remote Sensing courses. There are different types of
