INFORMATION SYSTEMS
MAJOR, BUSINESS
SPECIALIZATION

Associate Dean: Dr. Joseph Bailey
Assistant Dean: Brian Horick

The Business Area of Concentration in the Information Systems (IS) program prepares students to be effective planners, users, and managers of information technologies and systems in the current environment of the technology-enabled business firm. The IS major focuses on the system design and implementation skills including database and web design, analytical skills for both strategic planning of IT and performance evaluation, and the managerial plus organizational knowledge required to manage information systems and applications based on business and customer requirements. The major's core emphasizes the concepts of systems analysis and design, and the strategic use of information systems. In addition to a broad grounding in the key functional areas of marketing, operations, accounting, and finance, this major develops in-depth knowledge of information systems design and implementation, evaluation and planning of information technology investments, and managing dynamic technology projects.

Admission to the Major

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.

</tr>
</tbody>
</table>

Select two courses from list 'A' or one course from 'A' and one course from list 'B':

List A:
- BMGT405 | Data Communications and Networking |
- BMGT406 | Developing Applications for the Web and Social Media |
- BMGT408 | Emerging Topics in Information Systems |
- BMGT476 | Technology Applications in Supply Chain Management |
- BMGT485 | Project Management |
- BMGT404 | Essential Data Skills for Business Analytics |

List B:
- BMGT326 | Accounting Systems |
- BMGT332 | Quantitative Models for Management Decisions |
- BMGT385 | Operations Management |
- BMGT430 | Data Modeling in Business |
- BMGT461 | Entrepreneurship |
- BMGT484 | Digital Marketing |

Upper Level Economics Requirements

Select one of the following:

- ECON305 | Intermediate Macroeconomic Theory and Policy |
- ECON306 | Intermediate Microeconomic Theory & Policy |
- ECON330 | Money and Banking |
- ECON340 | International Economics |

Total Credits: 21

1. CMSC132 Object-Oriented Programming II is approved substitute
2. CMSC424 Database Design is approved substitute
3. repeatable if content differs

Note: Students who have completed either ECON325 or ECON326 can substitute these courses for ECON305 or ECON306 respectively.

In addition to the major requirements listed above, please consult the Summary of Bachelor of Science Degree Requirements (All Curricula) (https://academiccatalog.umd.edu/undergraduate/colleges-schools/business/#collegerequirementstext) on the College Requirements section or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

FOUR-YEAR PLAN
