**OPERATIONS MANAGEMENT & BUSINESS ANALYTICS MAJOR**

**Associate Dean:** Dr. Victor Mullins  
**Assistant Dean of Undergraduate Academic Affairs:** Dr. Philip Evers  
**Assistant Dean:** Brian Horick

The Operations Management & Business Analytics major will provide students with the knowledge and skills necessary to successfully apply quantitative and statistically based modeling techniques to data and advantageously use the information in the data to drive decision making and improve performance in an era with massive amounts of data. Students with these skills are in high demand and career opportunities exist in the public and private sectors in a variety of industries including energy, finance, insurance, health care, logistics, and marketing.

**Admission to the Major**

**Program Learning Outcomes**
1. Apply elements of critical thinking.  
2. Identify common situations in chosen career that could result in ethical dilemma.  
3. Analyze ethical scenarios and apply frameworks to develop solutions.  
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.  
5. Apply leadership skills to motivate and coordinate with others to achieve goals.
