GLOBAL ENGINEERING LEADERSHIP MINOR

A.James Clark School of Engineering (ENGR)
1131 Glenn L Martin Hall
https://eng.umd.edu/global/coursework

The engineering industry requires leadership to be exercised at all layers of an organization and today’s engineering leaders need to lead with a global vision and be knowledgeable of how to effectively lead global teams. The minor will position students to be more competitive in the job market and help students develop the skills necessary to be an effective leader and manager. Students may earn a minor and a notation on their official transcript by completing coursework which focuses on communication, leadership theory, global awareness, project management, understanding oneself, and working effectively with others.

The minor in Global Engineering Leadership consists of 16 credit hours. A maximum of six credits may also count toward the student's major, and no more than six credits may be taken at an institution other than the University of Maryland, College Park. All courses counted toward the minor must be completed with a "C-" or better. See the "Requirements" tab above for course requirements.

Contact the minor advisor, Natasha Chapman (chapman3@umd.edu) or visit eng.umd.edu/global for more information.
